

Delegations

Delegations are individuals or groups who request permission to appear before Council to speak on a particular issue.

Hawkings Epp Dumont LLB, Chartered Accountants

- The County's audited financial statements for 2014 were presented by the municipality's auditor.
- The County was given a clean report.

New BusinessLitter Along Provincial Highways

- Council expressed concern about garbage along the provincially-maintained Highways 36 and 55.
- The County's Senior Manager of Public Works relayed information he had received at a meeting with Alberta Transportation representatives about 2015 provincial budget implications.
- Alberta Transportation is responsible for all provincial highway maintenance (including garbage pick-up) and in May the annual 4H provincial Highway Cleanup Program will occur. However, Alberta Transportation reps did indicate that budget cuts will result in reduced service along provincial highways, particularly in summer maintenance funding.
- Alberta Transportation will only be completing one shoulder mowing pass this summer and will not be blanket spraying for weeds—only spot spraying in problem areas. Pothole patching will only be completed in driving lanes—not on the shoulder. There will be no crack sealing or chip seals in 2015.
