To the Contractors

**RE: ADDENDUM NO. 1
Contract No. 191-01487-00
Lac La Biche County
Plamondon/Caslan Connector (Range Road 162)
Grading, GBC, ACP and other Work**

Please find attached an addendum to the above-noted contract.

Please initial and include this Addendum when submitting your completed tender as per the Tender Instructions to Bidders.

If you have already submitted your tender, please print your company name on the fax copy you have now received and sign or initial your copy as a Company official and fax it to the County (780-623-2039) to confirm your having received it and acknowledgment of its contents and the impact of those changes. Additionally, as per usual, you have the option of using the Tender Amendment (Form C58) located in the Tender Amendment section of the Tender document.

Thank you,

Brad Grant P.Eng RPF PMP
WSP

Plamondon/Caslan Connector (Range Road 162)**Grading, GBC, ACP and other work****Contract No. 191-01487-00****Lac La Biche County****May 24, 2019****RE: ADDENDUM NO. 1**

Please initial and include this Addendum when submitting your completed tender to the Lac La Biche County Office in Lac La Biche Alberta

This tender is modified in accordance with the following:

1. In Section 5. SPECIAL PROVISIONS, 5.33.2 Preparing Subgrade Surface:

Remove the second Paragraph reading - Salvaged cold mix material will be incorporated into the subgrade during this time and paid as bid item "Preparing Subgrade Surface (First Layer)" in its entirety.

This paragraph will be removed as the Cold Mix will be incorporated into the Subgrade and Paid as "Common Excavation" as Per Special Provision 5.23

2. Asphalt Concrete Pavement EPS Alternate Plant Locations

- Lac La Biche County owns two gravel pits that currently hold the proper permitting to allow for asphalt plant operation. Use of either pit for the purpose of asphalt production for this project, will be allowed, subject to County Approval. These pit names and locations are as follows:

NW-14-65-14-W4 (Christy Creek Pit)

NW-16-63-11-W4 (Fork Lake Pit)

- The Contractor's use of these pits will be restricted to material stockpiling and asphalt production. The designated site shall be returned to original condition with any cleanup costs at the Contractor's Expense.
- Contractor Aggregate supply for this contract, with no option, is still in place.

End of Addendum
